

EP0389123

Publication Title:

A display system for multiviewer training simulators.

Abstract:

Abstract of EP0389123

A display system is disclosed which employs multiple holographic elements (12, 14) for selectively reflecting images from separate projectors (P1, P2) to one or more distinct viewing volumes (V1, V2). The display system provides the capability to project differing 3d perspective images to individual crew members located at separated positions within a training simulator.
